

LA ZONA

Sales Information and Pack Season 2010 - 2011

Pictures by Henry Gilbey

After 6 successful seasons of the already traditional Uruguay River Giant Dorado fishery, we keep trying to improve this unique destination. We have included round trip flights in the program, which will make your trip much more easy and comfortable.

Besides, we have designed last season a new extended program for spring fishing of 6 days for large groups (6-12 pax). This consists in 2 full fishing days in La Zona near the dam (4 morning or afternoon sessions) and 4 days in the Uruguay river area. La Zona still one of the best options for truly huge dorados.

We think this improvements will satisfy everyone expectations, our oldest and future anglers, offering better fishing opportunities.

LOCATION

- La Zona is located in the City of Concordia in the Entre Rios Province, Argentina.
- The Lodge is placed 5 minutes from the Fishing Area, the Uruguay River, downstream from the Salto Grande Dam.
- 1 hour and 20 minutes flight, north from Buenos Aires.

FISHING

- La Zona has earned a world class prestige for being the place to catch the biggest Dorados in the World.
- Over 10 Fly Fishing World Records have been broken in our waters.
- More than 200 fish over 40 pounds have been landed in the last three seasons.
- La Zona is a unique fishery that allows the fish to get these incredible sizes and numbers due to the impressive amount of food available. This happens because the shallow lake generated by the dam, increases the biological mass in the system. All that fito and zooplankton, is concentrated in a constant flow, and is the fund of a very complex chain that involves many species and happens to end with the Dorado, that achieves in this area, unprecedented growing rates.
- The fishing is done exclusively from boats, with two/three fishermen and a Guide per Boat.

HIGH SEASON PACK

- December - Mid May
- \$4800 (4 days fishing/5 nights)
- Capacity: 4 anglers in single rooms with private restrooms.
