

# MONSTER PEACOCK BASS

Freshwater Fishing in the Amazon

## THE TUCUNA AMAZON BOAT OPERATION

The TUCUNA is a smaller boat with the advantage of a shallow draft, making it possible to navigate far from hustle and bustle of the busier tributaries.

The TUCUNA will accommodate 6 anglers with a minimum of 4 anglers, which makes it great for a group of 4 friends who want the boat for themselves.

## Accommodation

The bedrooms are air conditioned and offer a private bathroom and shower in each room. The beds are very comfortable and the rooms are spacious, for 2-3 anglers per room.

Don't worry about not having much space - the Upper Deck serves as the dining area and the area where all social activity takes place.

Our server will serve you all the beer, wine and liquor you care to drink.

## Fishing

We fish out of 17' aluminum boats, 25 hp Mercury engines and electric trolling motors.

2 anglers and a guide fish from sun up to sunset.

## American and Brazilian Cuisine

The food is always awesome, serving a mix of American and Brazilian cuisine.

We eat a lot of fish, pork, chicken, beef and steak.

## Our Package

*This is the only operation in the Amazon that offers a trip with a minimum of 4 anglers, offers all the comfort of home, and at a reasonable price.*
